DETAILED ACTION

This action is responsive to applicant's filing of amendments and arguments on 7/8/2008.

Allowable Subject Matter

Claims 1-26 and 28-35 are allowed.

The following is an examiner's statement of reasons for allowance: In brief, the applicant's arguments were persuasive. Notably, the display in Coutts teaches away from using the display of ATM, as the applicant has persuasively argued. Also, as the applicant has persuasively argued, there is no clear motivation in the prior art to substitute some device (for instance a memory stick) for the handheld device of Coutts because (1) there is no evidence that the device in Coutts is burdensome and (2) as the applicant has noted, simply setting the handheld device of Coutts on a tabletop would relieve this burden, if it were a problem.

It is further noted although tools such as diagnostic disks (i.e. a Windows boot disk) exist for computers, this does not apply well to the claims because in the present claims, diagnostic data related to transaction function devices have been pre-stored by the ATM and there is no clear equivalent on a PC.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
